EDUCATION

UNIVERSITY OF NAPLES FEDERICO II

Bachelor of Science - Computer Science, Graduated

Naples, Italy

July 2024

APPLE DEVELOPER ACADEMY

Swift/SwiftUI iOS development with Agile methodologies and a product-driven mindset

Naples, Italy

Sep 2021 - Jun 2022

WORK EXPERIENCE

KEENEIGHT

Software Engineer

Naples, Italy

Aug 2024 – Feb 2026

- Delivered software solutions for ultra-premium automotive clients including Bugatti and Aston Martin, operating in a high-accountability environment with strict reliability and operational standards
- Automated synchronization of 10,000+ records across 4+ external services (e.g., Jira) by engineering scheduled API integrations with built-in consistency checks, eliminating manual reconciliation effort and ensuring real-time data integrity across platforms
- Delivered 10–20 feature tasks per week by leading recurring client and stakeholder sessions to capture requirements, conducting feasibility analysis, and driving end-to-end implementation of tailored software modules
- Maintained data integrity across 200+ relational tables by designing targeted SQL queries via the MBS plugin, ensuring consistent performance and long-term architectural reliability

APPLE DEVELOPER ACADEMY - PIER PROGRAMME

iOS Developer

Naples, Italy

Jul 2022 – Jun 2023

- Led backend architecture and GitHub workflow for a 6-person team, defining the MVVM structure from scratch and overseeing PR reviews and merges, delivering the project 2 months ahead of schedule
- Abstracted all FileMaker API communication into a clean, reusable iOS data layer via FMProKit, significantly reducing codebase complexity and accelerating team development velocity

PROJECTS

FMPROKIT - github.com/CoderlyStudio/FMProKit

May 2023

- Designed and implemented an open-source Swift package enabling full CRUD communication between iOS apps and FileMaker databases via OData and Data API protocols, reaching 45+ GitHub stars and adoption across multiple Apple Developer Academy projects
- Led a 3-person team, authored comprehensive DocC documentation and onboarding guides, and maintained a private unit test suite to ensure reliability across protocol implementations

CINEMATES - [Play Store](#)

Dec 2022

- Engineered the data layer of a native Java Android application published on the Google Play Store, implementing database communication, data structures, JSON parsing, and state management across a 3-person team, contributing to 1K+ downloads and a 4.5-star rating

ADDITIONAL

Technical Skills: Swift, Java, SQL, SwiftUI, UIKit, MVVM Architecture, Async/Await, Generics, Swift Package Manager, Xcode, REST API Design & Integration, Relational Database Design, JSON Parsing

Languages: Fluent in English; Italian Native speaker

Certifications & Training: Claude Code in Action — Anthropic;

Cisco Networking Academy — CCNA: Introduction to Networks · Network Defense · Introduction to Cybersecurity · Cyber Threat Management
